## Background

GE Vernova Grid Solutions is committed to customer care and the support of our products.  As part of this commitment, we strive to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On December 12th, 2022, GE Grid Solutions announced the discontinuation of the manufacture and sale of **DS Agile v6.x running Windows 10.**

On 28th June 2023, GE specified the last order date for new greenfield substations or projects as 31st May 2024.

On 20th June 2024, GE confirmed order book closed for greenfield applications on 31st May 2024, and revised the status below to "Contact GE for availability for brownfield applications".

## Status

Please contact GE regarding availability for brownfield applications. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

| OFFERING | STATUS | ALTERNATIVE |

## Support

GE Vernova's warranty provision is unaffected by this End-of-Manufacturing Notification.  After the published last order date elapses, a repair service follows for products no longer under warranty subject to material availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per product basis.

## For Additional Information

If we can provide assistance with migration to new products, please contact us for help.  Advice and assistance are also available via:
