

MU320E Process Interface Unit with integrated analog and digital merging interfaces

Firmware version FW 04A01.3 Release Notes

Copyright © 2024 GE Vernova

Overview

GE regularly introduces firmware updates to address enhancements in different functional areas. This firmware release includes the following:

- **Bug fix.**

Firmware Upgrade Process

Download the MU320E firmware `mu320-firmware.install-04A01.3.sfw` .

Download and install, the MU320 Extended Configurator v4.1.0 or newer.

Run the configurator and load the downloaded firmware version.

Upgrade directly from any previous firmware version: 04A00 - 04A01.2.

Please contact your local sales representative or Grid Automation Global Contact Center for any questions regarding this upgrade.

HW Compatibility

All versions of MU320E.

Release details

In the following release descriptions, a revision category letter is placed to the left of the description. Refer to the Appendix at the end of this document for a description of the categories displayed.

F Fixed Binary Inputs pickup timer

A bug was found on Binary Inputs pickup timer for settings greater than 50 seconds.

Appendix

Change categories

This document uses the following categories to classify the changes.

Table 1: Revision Categories

Code	Category	Comments
N	New feature	A separate feature added to the product. Changes to existing features even if they significantly expand the functionality are not in this category
G	Change	A neutral change that does not bring any new value and is not correcting any known problem
E	Enhancement	Modification of an existing feature bringing extra value to the application
F	Fix	Change to fix an issue with existing functionality.
