Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On June 20th, 2024, the discontinuation of the manufacture and sale of **HID Application 2 for 2-winding transformer REF 2 Resistors + 2 MOV** was announced.

On 12th December 2024, the status of **HID Application 2 for 2-winding transformer REF 2 Resistors + 2 MOV** was revised to order book closed and alternatives were identified as shown below. Additionally, the scope of the obsolescence was revised to include **HID Application 1 for 1-winding transformer 1 resistor + 1 MOV** and **HID Application 3 for bus bar applications** (high impedance differential element) order codes: HID-3-1, HID-3-2 and HID-3-3 as shown below. This notice was revised in accordance with GE Vernova rebranding guidelines.

Last-Time Buy Window

Please plan the purchase of any additional quantities or spares that you need. Orders should be placed prior to the last order date shown. **Orders will be fulfilled based upon availability** and shipments typically occur within three months of last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

Support

GE Vernova’s warranty provision is unaffected by this End-of-Manufacturing/Supply Notification. After the published last order date elapses, a repair service follows for items no longer under warranty subject to availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact us if they need further information concerning the level of service that is provided on a per offering basis.
