Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of supply for older products or design variants.

On June 28 2023, GE Grid Solutions announced the discontinuation of the sale of **selected accessories for ILMS (A2479P11, PVKIT0, WKIT-C, and XRT12A1)**.

On September 8, 2023, GE revised the offering description for ILMS Accessories to remove **XRT12A1** which remains available for ordering, subject to availability.

On December 18, 2023, GE revised the scope of the offering impacted by this End-of-Supply notice and subsequently clarified the last order dates of each offering as shown below.

Last-Time Buy Window

Please plan the purchase of any additional or spare devices that you feel you may need. Orders should be placed prior to the last order date shown. **Orders will be fulfilled based upon availability** and products typically ship within three months of the last order date. Requests for delayed shipments must be agreed with our factories prior to order acceptance.

ILMS Applications TNetx Dynamic Line Rating Application XNetx Fault Location Application	Order book closed as of 18th December 2023	

Support

GE's warranty provision is unaffected by this End-of-Supply Notification. A repair service for products no longer under warranty may be offered subject to material availability that includes repairing failed components or modules, but not to providing advanced replacements or a new product or module as a replacement or spare.

Customers should contact GE if they need further information concerning the level of service that is provided on a per product basis.
