

GE Vernova reports first quarter 2024 financial results

- Solid first quarter results; growing backlog[1] & significant margin expansion across all segments; reaffirming 2024 guidance

First Quarter 2024 Highlights:

- Total orders of \$9.7B with orders exceeding revenue, driving continued backlog¹ growth
- Total revenue of \$7.3B, +6%, +5% organically*, led by services growing +9%, +8% organically*
- Net income (loss) of \$(0.1)B, +\$0.2B; net income (loss) margin of (1.5)%, +360 bps
- Adjusted EBITDA* of \$0.2B, +\$0.3B organically*; adjusted EBITDA margin* of 2.6%, +470bps organically*
- Cash from (used for) operating activities of \$(0.4)B, +\$0.2B; free cash flow* (FCF) of \$(0.7)B, +\$0.2B, on improved earnings partially offset by increased working capital use

CAMBRIDGE, Mass., (Apr. 25, 2024) – GE Vernova Inc. (NYSE: GEV), a unique industry leader enabling customers to accelerate the energy transition, today reported financial results for the first quarter ending March 31, 2024.

“We delivered solid results with significant margin expansion across each segment, and I am pleased with the progress we are making as an independent company following our April 2 spin-off from GE. The energy transition is a growing, exciting market and GE Vernova is well-positioned to lead,” said **GE Vernova CEO Scott Strazik**. *“In 2024, we will continue to execute our strategy with sustainability, innovation, and lean at our core. With the combination of strong market demand and operational improvement in our businesses, we are electrifying and decarbonizing the world while delivering an attractive multi-year financial*

trajectory. I'm grateful to the entire GE Vernova team for their hard work to support our customers and stakeholders."

In the quarter, GE Vernova orders of \$9.7 billion were flat, down (1)% organically. Revenue of \$7.3 billion was up +6%, +5% organically*, driven by Electrification and Power. Services revenue grew +9%, +8% organically*, with growth across all segments. Margins were higher from price, productivity, cost management and volume.

Power

- Strong orders of \$5.0 billion, up 24% organically from increased HA and Aeroderivative gas turbine equipment orders, and revenues of \$4.0 billion increased +6%, +4% organically*, led by higher Gas Power services.
- Power secured orders for 8 HA gas units, including [an order](#) for 7HA.03 equipment from Louisville Gas and Electric Company and Kentucky Utilities Company, regulated subsidiaries of PPL Corp. (NYSE:PPL).

Wind

- Orders of \$1.1 billion, down (40)% organically as developers progress through siting and permitting, and revenues of \$1.6 billion declined (6)%, (7)% organically*, from lower Onshore, partially offset by Offshore backlog execution.
- Wind booked 0.6GW of wind turbine orders while continuing to implement selectivity, lean, and pricing.

Electrification

- Orders of \$3.6 billion, down (10)% organically with strong grid demand more than offset by a non-repeat of large High-Voltage Direct Current (HVDC) orders, and revenues of \$1.7 billion grew +24%, +21% organically*, due to growth in Grid Solutions.
- Electrification [awarded](#) a consortium contract with MYTILINEOS to supply two HVDC converter stations for Eastern Green Link 1 in the United Kingdom.

Company Highlights:

- In the first quarter, GE Vernova experienced zero fatalities and demonstrated an Injury and Illness (I&I) rate of 0.37^[2], a 5.1% improvement versus the prior year period.
- Invested \$0.2 billion in capital expenditures versus \$0.1 billion in the first quarter of 2023 to increase assembly capacity, supporting profitable growth.
- Funded \$0.2 billion in research and development (R&D) spending to advance and commercialize breakthrough energy transition technologies.
- Hosted its 2024 Investor Day on March 6 and debuted its sustainability framework and lean operating system.

"With an encouraging start to the year, we are executing our financial strategy to deliver disciplined revenue growth with stronger profitability and free cash flow. We expect cash generation to improve meaningfully every quarter this year, in line with our typical seasonality," said GE Vernova CFO Ken Parks. "As we execute this strategy, we will focus on strategic capital allocation and remain committed to maintaining our investment-grade balance sheet."

Guidance:

GE Vernova reaffirmed its 2024 financial guidance for revenue of \$34-35 billion, adjusted EBITDA margin* at the high end of mid-single digits, cash from operating activities of \$1.5-1.9 billion, and free cash flow* of \$0.7-1.1 billion. Additionally, GE Vernova reaffirmed segment guidance of:

- Power: mid-single digit organic revenue* growth with ~100bps of organic EBITDA margin* expansion.
- Wind: flat organic revenue* growth, approaching profitability.
- Electrification: low double-digit organic revenue* growth with mid-single digit segment EBITDA margins.

(a) Reflects earnings (loss) per share on a basic and diluted basis. On April 2, 2024, there were approximately 274 million shares of GE Vernova common stock outstanding. The computation of earnings (loss) per common share for all periods through March 31, 2024 was calculated using 274 million common shares and is net of Net loss (income) attributable to noncontrolling interests. For periods prior to the Spin-Off, the Company participated in various GE stock-based compensation plans. It is assumed that there are no dilutive equity instruments as there were no equity awards of GE Vernova outstanding prior to Spin-Off. Outstanding equity instruments may convert into equity instruments of the Company after the Spin-Off and be included in the diluted earnings per share calculation in future reporting periods to the extent such equity instruments are dilutive.

Non-GAAP Financial Measures

The non-GAAP financial measures presented in this press release are supplemental measures of our performance and our liquidity that we believe help investors understand our financial condition and operating results and assess our future prospects. We believe that presenting these non-GAAP financial measures, in

addition to the corresponding U.S. GAAP financial measures, are important supplemental measures that exclude non-cash or other items that may not be indicative of or are unrelated to our core operating results and the overall health of our company. We believe that these non-GAAP financial measures provide investors greater transparency to the information used by management for its operational decision-making and allows investors to see our results “through the eyes of management.” We further believe that providing this information assists our investors in understanding our operating performance and the methodology used by management to evaluate and measure such performance. When read in conjunction with our U.S. GAAP results, these non-GAAP financial measures provide a baseline for analyzing trends in our underlying businesses and can be used by management as one basis for financial, operational and planning decisions. Finally, these measures are often used by analysts and other interested parties to evaluate companies in our industry.

Management recognizes that these non-GAAP financial measures have limitations, including that they may be calculated differently by other companies or may be used under different circumstances or for different purposes, thereby affecting their comparability from company to company. In order to compensate for these and the other limitations discussed below, management does not consider these measures in isolation from or as alternatives to the comparable financial measures determined in accordance with U.S. GAAP. Readers should review the reconciliations below and should not rely on any single financial measure to evaluate our business. The reasons we use these non-GAAP financial measures and the reconciliations to their most directly comparable GAAP financial measures follow. Unless otherwise noted, tables are presented in U.S. dollars in millions, except for per-share amounts which are presented in U.S. dollars. Certain columns and rows within tables may not add due to the use of rounded numbers. Percentages presented in this report are calculated from the underlying numbers in millions.

We believe the organic measures presented below provide management and investors with a more complete understanding of underlying operating results and

trends of established, ongoing operations by excluding the effect of acquisitions, dispositions and foreign currency, which includes translational and transactional impacts, as these activities can obscure underlying trends.

We believe that Adjusted EBITDA* and Adjusted EBITDA margin*, which are adjusted to exclude the effects of unique and/or non-cash items that are not closely associated with ongoing operations provide management and investors with meaningful measures of our performance that increase the period-to-period comparability by highlighting the results from ongoing operations and the underlying profitability factors. We believe Adjusted organic EBITDA* and Adjusted organic EBITDA margin* provide management and investors with a more complete understanding of underlying operating results and trends of established, ongoing operations by further excluding the effect of acquisitions, dispositions and foreign currency, which includes translational and transactional impacts, as these activities can obscure underlying trends.

We believe these measures provide additional insight into how our businesses are performing, on a normalized basis. However, Adjusted EBITDA*, Adjusted organic EBITDA*, Adjusted EBITDA margin* and Adjusted organic EBITDA margin* should not be construed as inferring that our future results will be unaffected by the items for which the measures adjust.

We believe Adjusted net income* and Adjusted net income margin* provide investors with improved comparability of underlying operating results and a further understanding and additional transparency regarding how we evaluate our business. Adjusted net income* also provides management and investors with additional perspective regarding the impact of certain significant items on our earnings. Adjusted net income* excludes non-operating benefit income, certain tax expenses, and unique and/or non-cash items, that can have a material impact on our results. In addition, we may from time to time consider excluding other nonrecurring items to enhance comparability between periods. However, Adjusted net income* and Adjusted net income margin* should not be construed as inferring that our future results will be unaffected by the items for which the measures adjust.

We believe Adjusted earnings (loss) per share* provides investors with improved comparability of underlying operating results and a further understanding and additional transparency regarding how we evaluate our business. Adjusted earnings (loss) per share* also provides management and investors with additional perspective regarding the impact of certain significant items on our per share earnings (loss). Adjusted earnings (loss) per share* excludes non-operating benefit income, certain tax expenses, and unique and/or non-cash items that can have a material impact on our results. In addition, we may from time to time consider excluding other nonrecurring items to enhance comparability between periods. (d) Adjusted earnings (loss) per share* amounts are computed independently, and thus, the sum of per-share amounts may not equal the total.

We believe that free cash flow* provides management and investors with an important measure of our ability to generate cash on a normalized basis. Free cash flow* also provides insight into our ability to produce cash subsequent to fulfilling our capital obligations; however, free cash flow* does not delineate funds available for discretionary uses as it does not deduct the payments required for certain investing and financing activities.

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements contained in this release and certain of our other public communications and SEC filings may constitute “forward-looking statements” that involve risks and uncertainties. Forward-looking statements are based on our current assumptions regarding future business and financial performance and condition. These statements by their nature address matters that are uncertain to different degrees, such as our expected future business and operating results and opportunities; our progress as an independent company; the increased demand for our products and services, the roles we expect them to play in the energy transition and our ability to meet those demands and execute those roles; our business strategy and the benefits we expect to realize; our expected operational improvements; our expectations regarding the energy transition; our investments; our expected cash generation; our capital allocation strategies; and our commitment to maintaining an investment grade rated balance sheet. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any

historical or current fact. Words such as “anticipates,” “believes,” “expects,” “estimates,” “intends,” “plans,” “projects,” and similar expressions, may identify such forward-looking statements. Any forward-looking statement in this release speaks only as of the date on which it is made. Although we believe that the forward-looking statements contained in this release are based on reasonable assumptions, you should be aware that many factors could affect our actual financial results, cash flows, or results of operations and could cause actual results to differ materially from those in such forward-looking statements, including but not limited to:

- Changes in macroeconomic and market conditions and market volatility, including risk of recession, inflation, supply chain constraints or disruptions, interest rates, the value of securities and other financial assets, oil, natural gas and other commodity prices and exchange rates, and the impact of such changes and volatility on the Company’s business operations, financial results and financial position;
- Global economic trends, competition and geopolitical risks, including impacts from the ongoing geopolitical conflicts (such as the Russia-Ukraine conflict and conflict in the Middle East), demand or supply shocks from events such as a major terrorist attack, natural disasters or actual or threatened public health pandemics or other emergencies, or an escalation of sanctions, tariffs or other trade tensions, and related impacts on our supply chains and strategies;
- Actual or perceived quality issues or safety failures related to our complex and specialized products, solutions and services;
- Market developments or customer actions that may affect our ability to achieve our anticipated operational cost savings and implement initiatives to control or reduce operating costs;
- Significant disruptions in the Company’s supply chain, including the high cost or unavailability of raw materials, components, and products essential to our business, and significant disruptions to our manufacturing and production facilities and distribution networks;
- Our ability to attract and retain highly qualified personnel;

- Our ability to obtain, maintain, protect and effectively enforce our intellectual property rights;
- Our capital allocation plans, including the timing and amount of dividends, share repurchases, acquisitions, organic investments, and other priorities;
- Downgrades of our credit ratings or ratings outlooks, or changes in rating application or methodology, and the related impact on the Company's funding profile, costs, liquidity and competitive position;
- Shifts in market and other dynamics related to electrification, decarbonization or sustainability;
- The amount and timing of our cash flows and earnings, which may be impacted by macroeconomic, customer, supplier, competitive, contractual and other dynamics and conditions;
- Actions by our joint venture arrangements, consortiums, and similar collaborations with third parties for certain projects that result in additional costs and obligations;
- Any reductions or modifications to, or the elimination of, governmental incentives or policies that support renewable energy and energy transition innovation and technology;
- Our ability to develop and introduce new technologies to meet market demand and evolving customer needs;
- Changes in law, regulation or policy that may affect our businesses, such as trade policy and tariffs, regulation and incentives related to sustainability, climate change (including the impact or status of the Inflation Reduction Act of 2022 and other policies), environmental, health and safety laws, and the effects of tax law changes;
- Our ability and challenges to manage the transition as a newly stand-alone public company or achieve some or all of the benefits we expect to achieve from such transition;
- The risk of an active trading market not developing or being sustained or significant volatility in our stock price; and
- The impact related to information technology, cybersecurity or data security breaches at GE Vernova or third parties.

These or other uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements, and these and other factors are more fully discussed in the “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” sections included in our information statement dated March 8, 2024, which was furnished as Exhibit 99.1 to a Current Report on Form 8-K furnished with the Securities and Exchange Commission (SEC) on March 8, 2024 as may be updated from time to time in our SEC filings and as posted on our website at www.gevernova.com/investors/fls. There may be other factors not presently known to GE Vernova or which we currently consider to be immaterial that could cause our actual results to differ materially from those projected in any forward-looking statement that we make. We do not undertake any obligation to update or revise our forward-looking statements except as required by applicable law or regulation. This press release also includes certain forward-looking projected financial information that is based on current estimates and forecasts. Actual results could differ materially.

About GE Vernova

GE Vernova is a purpose-built global energy company that includes Power, Wind, and Electrification segments and is supported by its accelerator businesses of Advanced Research, Consulting Services, and Financial Services. Building on over 130 years of experience tackling the world's challenges, GE Vernova is uniquely positioned to help lead the energy transition by continuing to electrify the world while simultaneously working to decarbonize it. GE Vernova helps customers power economies and deliver electricity that is vital to health, safety, security, and improved quality of life. GE Vernova is headquartered in Cambridge, Massachusetts, U.S., with more than 80,000 employees across 100+ countries around the world.

GE Vernova's mission is embedded in its name – it retains its legacy, “GE,” as an enduring and hard-earned badge of quality and ingenuity. “Ver” / “verde” signal Earth's verdant and lush ecosystems. “Nova,” from the Latin “novus,” nods to a new, innovative era of lower carbon energy. Supported by the Company Purpose, The Energy to Change the World, GE Vernova will help deliver a more affordable, reliable, sustainable, and secure energy future.
