

## **GE Vernova announces agreement to strengthen and grow U.S. energy supply chain, acquiring gas turbine combustion parts business from Woodward, Inc.**

- Acquisition further secures critical supply chain during time of increasingly strong demand

**GREENVILLE, S.C.** (November 18, 2024) – [GE Vernova](#), Inc. (NYSE: GEV) today announced that it has signed a definitive agreement to acquire Woodward, Inc.’s (NASDAQ: WWD) heavy duty gas turbine combustion parts business based in Greenville, S.C. This transaction is an important component of GE Vernova’s strategy of investing in U.S. manufacturing and jobs and strengthening its domestic supply chain.

“We are excited to acquire and integrate this critical capability for our domestic supply chain as we continue to see increasing demand for our heavy-duty gas turbines and upgrades globally,” said [Eric Gray](#), **President & CEO, GE Vernova’s Gas Power business**. “Welcoming these experts to our Greenville, S.C., team will further enable us to address this growing demand from our customers and meet the electrification needs of our country while serving as an indicator of our commitment to the industry and the community.”

Under the terms of the agreement, and subject to meeting all closing terms and conditions, GE Vernova is expected to acquire all assets related to Woodward, Inc.’s Greenville site, which today is nearly entirely dedicated to supplying parts and services to GE Vernova’s gas turbine manufacturing operations. GE Vernova has had a significant presence in the Greenville area for more than 50 years with current operations including manufacturing and testing gas turbines, providing global engineering support and other activities.

“We are pleased to sign this agreement with GE Vernova,” said **Chip Blankenship, Chairman and CEO of Woodward**. “This targeted transaction is good for our customer and members and will allow us to focus resources on products that will drive the most value as part of Woodward. I am grateful for our Greenville members’ longtime dedication to Woodward and to serving the customer. They will have opportunities to continue their great work as GE Vernova takes on ownership of the operations.”

While financial terms of the acquisition are not being made public, the transaction is expected to close in early 2025, subject to certain closing conditions. GE Vernova is working closely with the Woodward team to enable a smooth transition for employees in Greenville.
