Sub.: Award of Contract

Dear Sir/Madam,

We would like to notify that GE Power India Limited has been awarded a contract by NTPC Limited for its Feroze Gandhi Unchahar Thermal Power Project Stage-I, II & III, 5x210 MW to supply and install Wet FGD systems for a value of INR 6900 million (\$97 million) with common absorber (combination of multiple boiler units). This is the first time that GE in India has been awarded a project to install common absorber for a combination of multiple boiler units. The project will be located in Unchahar, Uttar Pradesh. The project intends to remove SO₂ from flue gas generated by coal fired boilers in the respective plants in order to comply to environmental new emission norms issued. This will help the customer to become compliant to environmental new emission norms issued by the Government in December 2015 to restrict the SO_x emission with the help of Limestone as a reagent to reduce the SO₂ emissions.

This information is being given in accordance with Regulation 30 of the Listing Regulations.

Thanking you,
Yours truly,

For GE Power India Limited

Pradeepta Puhan
Company Secretary
