Management Console Release Notes

Release Notes for the following versions of the GE Digital APM Management Console are available:

- [V1.0.0](V1.0.0)
- [V1.1.0](V1.1.0)
- [V1.2.0](V1.2.0)
- [V1.3.0](V1.3.0)
- [V1.4.0](V1.4.0)
- [V1.5.0](V1.5.0)

> **Note**: For each item in the Release Notes, one or more numbers are included in parentheses at the end of the description. These values represent work items that GE Digital uses to track changes made to the product.

Management Console - V1.0.0

The Management Console V1.0.0 is now available. The *Meridium APM Now Management Console (MC)* is a hosted solution that automates the process of onboarding the Meridium APM Now customers. You can also use the Management Console to perform user management tasks such as creating users, resetting the password, and assigning the MC and Meridium roles.

Management Console - V1.1.0

Management Console V1.1.0 is now available. The following enhancements have been made in V1.1.0.

- You can now use Management Console to upgrade a data source to the next available target version via the Datasource Information page. (TS ID: 136633)

- You can now access the list of log files via the Log Details page. (TS ID: 209116)

- You can now assign a user as Meridium User by using the MC Role window. By assigning a user as Meridium User for a specific data source, the user can log in to Meridium Enterprise APM only by using that data source. (TS ID: 197456)

Management Console - V1.2.0

Management Console V1.2.0 is now available. The following enhancements have been made in V1.2.0.

- You can now delete a user from the list of users by selecting the **Delete** button. After deleting a user, that user can no longer access Meridium Enterprise APM or Management Console. (TS ID: 239090)

- Two new roles *MI Analytics Administrator* and *MI Analytics Power*, have been added to the **Meridium Roles** section. (TS ID: 187211)

- You can now restrict a user to access the selected data sources by clearing the check box provided at the top of the **Meridium Users** column. (TS ID: 221083)

Management Console - V1.3.0

Management Console V1.3.0 is now available. The following enhancements have been made in V1.3.0.

- When adding a user, you can now specify the following details for a user:
    - Specify the expiration date of the user account by using the **Account expires on** feature. (TS ID: 221849)
    - Send email notifications to a user or a bulk set of users by using the **Email Notification** feature. (TS ID: 273351)
    - Assign users to specific sites by using the **Sites** box. (TS ID: 251930)
- On the **Datasource Information** page, you can now discard or delete the data source information by using the **Discard** button. (TS ID: 267643)
- On the **Datasource Information** page, you can now revert the database to a baseline state or to a last-saved database state by using the **Refresh** check box. (TS ID: 259121)

Management Console - V1.4.0

The following release notes are available for Management Console V1.4.0:

- [Enhancements](#)
- [Obsolete Features](#)

Enhancements - V1.4.0

Management Console V1.4.0 is now available. The following enhancements have been made in V1.4.0.

- On the **Datasource Information** page, you can now clear the cache for a data source by selecting the **Clear Cache** button. (TS ID: 304168)
- The following enhancements have been made to the **User Name** page:
    - You can now enter a user ID and check the availability to validate the uniqueness of the user ID.
    - The user ID now displays the User ID along with the domain name.
    - The User Template (.CSV) file now contains the User ID column to facilitate the bulk upload of users.

(TS IDs: 298701, 295771)

Management Console - V 1.5.0

The following release notes are available for Management Console V1.5.0:

- Enhancements
- Obsolete Features

Enhancements - V1.5.0

Management Console V1.5.0 is now available. The following enhancements have been made in V1.5.0.

- The GE Digital APM Management Console now supports onboarding a customer to Unified APM. To support this enhancement, the following options have been added to the **Add New Customer** page.
    - UAA
    - Tenant ID
    - Unified APM
    - Meridium APM

    (TS ID: 295605)

- You can now use the GE Digital SSO ID and password to log in to the Management Console application. (TS ID: 311085)

Obsolete Features - V1.5.0

The following items are no longer used in GE Digital APM Management Console.

- The following elements have been removed from Management Console:
  - The **Forgot Password** page is no longer available in the Management Console application.
  - The **Meridium URL** link has been removed from the **Datasource Information** page.
  - The **Service Provider Admin**, **Company Admin** and the **Datasource Admin** sections have been removed from the **Service Provider Information**, **Company Information**, and **Datasource Information** pages.
  - The **User List** section has been removed from the **Service Provider Information**, **Company Information**, and **Datasource Information** pages for Unified APM.
  - The **User Privilege** page is no longer available in the Management Console application.
