Integration with Third-Party Applications

GE Digital APM is integrated with the following third-party applications:

- Visionaize

About Integration with Visionaize

GE Digital has partnered with Visionaize to offer its V-Suite Starter, adding 3D visualization capabilities and greater situational awareness of fixed assets, thus providing the following advantages:

- Data-driven visualizations of key APM Integrity attributes (such as risk, corrosion analyses, and integrity operating windows)
- Contextualizing real-time and historical asset data on a three-dimensional model, available online as well as offline
- Improving productivity and decision-making
- Optimizing overall inspection programs
