

# PROFICY WEBSpace FROM GE VERNOVA

Deliver advanced control and visualization over iPad, Android, and a Web browser

## Increase operator agility and effectiveness to improve business performance

Proficy Webspace from GE Vernova offers an easy-to-use, full-featured Web and mobile client that enables you to extend, expand, and enhance your new or existing iFIX or CIMPLICITY applications systems. It enables full control and visualization over your company Intranet or secured Internet without the need to change or alter your software application. Proficy Webspace can be set up within minutes!

With Proficy Webspace, you can reduce costs, improve time to action, and expand your analytic capabilities, driving a sustainable advantage across all levels of your business, including management, operators, engineering, and IT levels.

## OUTCOMES

- Speed problem detection and response across your entire Increase information sharing across teams with a full-featured, secure-by-design Web and mobile client for iFIX or CIMPLICITY
- Speed the right actions with model-based navigation and quick access to information over the Internet, anywhere
- Save time with zero client configuration and the ability to port screens instantly
- Decrease costs with one server that renders three applications on your choice of client, including iOS, Android, and browser access
- Boost flexibility by dynamically adjusting control points on the- fly and viewing multiple systems simultaneously
- Improve analytical and planning abilities with real-time data and information viewing

## 01 Extend your HMI/SCADA with the power of the Industrial Internet

Proficy Webspace extends 100% of your iFIX and CIMPLICITY HMI/SCADA viewing and control abilities into a Web browser or tablet. A “zero-install” HTML5 client allows you to access your applications from popular Web browsers on Windows, Mac, and Linux computers. For MAC OS X users, a dedicated app is available, providing multi-monitor support, client sound, and Max OS X Gatekeeper support.

Proficy Webspace doesn't compromise your proven applications, graphics, or functionality, providing a full-featured client and delivering comprehensive functionality over a browser.

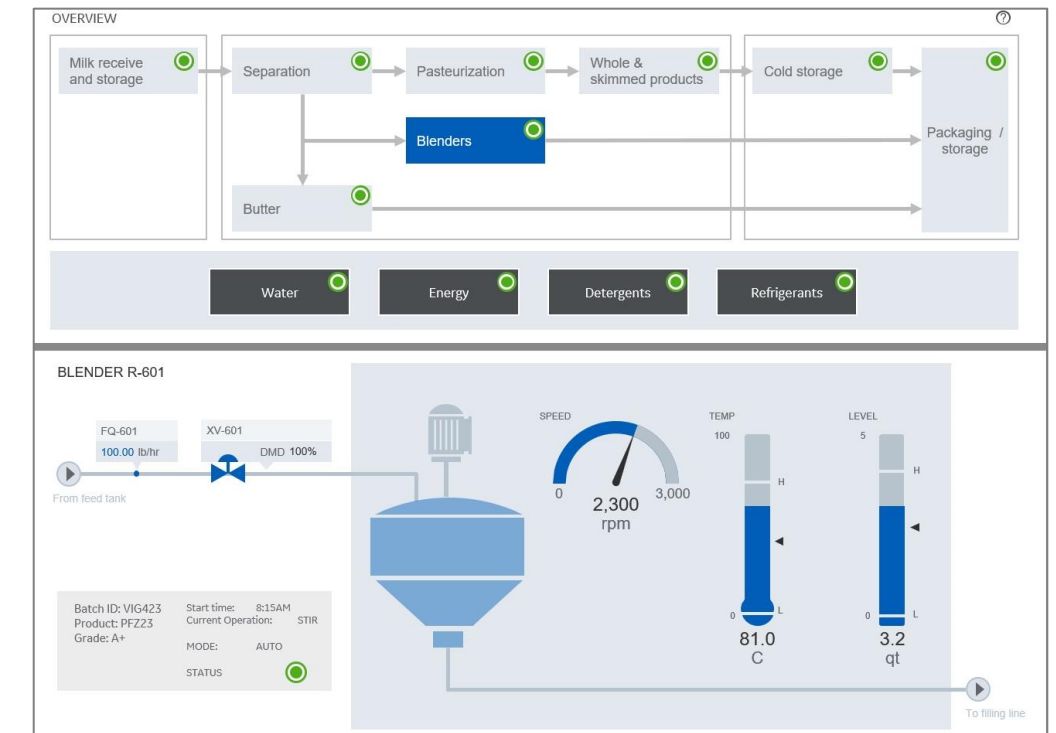

## 02 Increase information sharing with flexible, secure-by-design technology

With support for up to 70 simultaneous clients, Proficy Webspace enables new and existing systems to be dynamically expanded across the facility or around the globe. The solution enhances your user experience with the ability to run multiple Webspace clients and view many systems from one location. Additionally, Webspace allows you to manually configure a sandbox and whitelist entries for files and programs.

## 03 Gain full-featured mobility with the SCADA app

Easily and quickly harness the power of your HMI/SCADA on iPad or Android devices with minimal engineering effort. Download the free SCADA app and instantly connect to your runtime projects. Leverage the same full-featured capabilities of a standard client with full HMI/SCADA functionality, including third-party app support with no screen conversions required.

Thanks to the Mobile Sense technology, your application accessed from mobile devices, behaves and responds more like mobile apps.

Proficy Webspace extends your application viewing and control abilities right into a Web browser—without compromising features, graphics, or functionality.

## 04 Increased security

Your application deserves the best protection. For that matter, Proficy Webspace leverages SSL/TLS Encryption (up to 256-bit AES) to ensure the security of the data that is transmitted over the network.

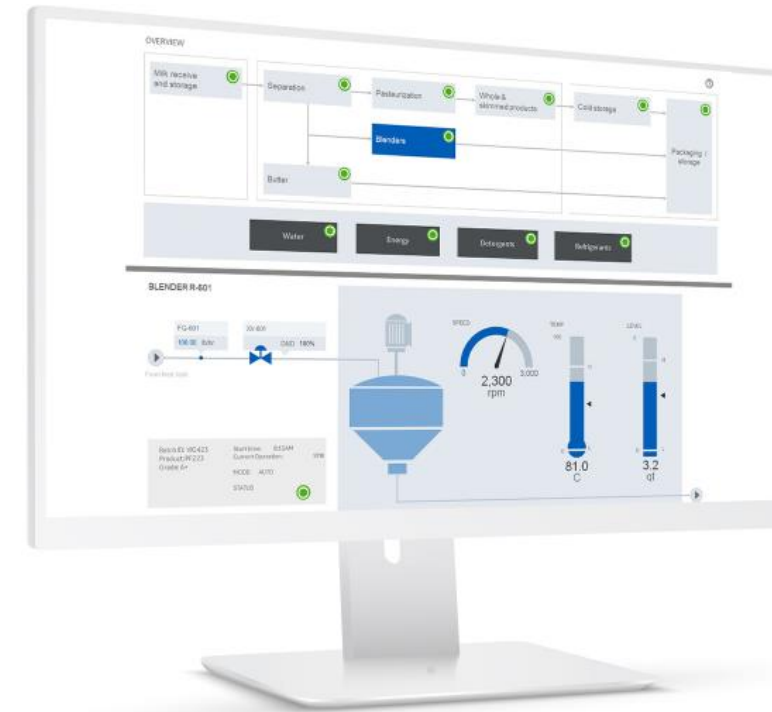

# PROFICY WEBSITE FROM GE VERNOVA

Deliver advanced control and visualization over iPad, Android, and a Web browser

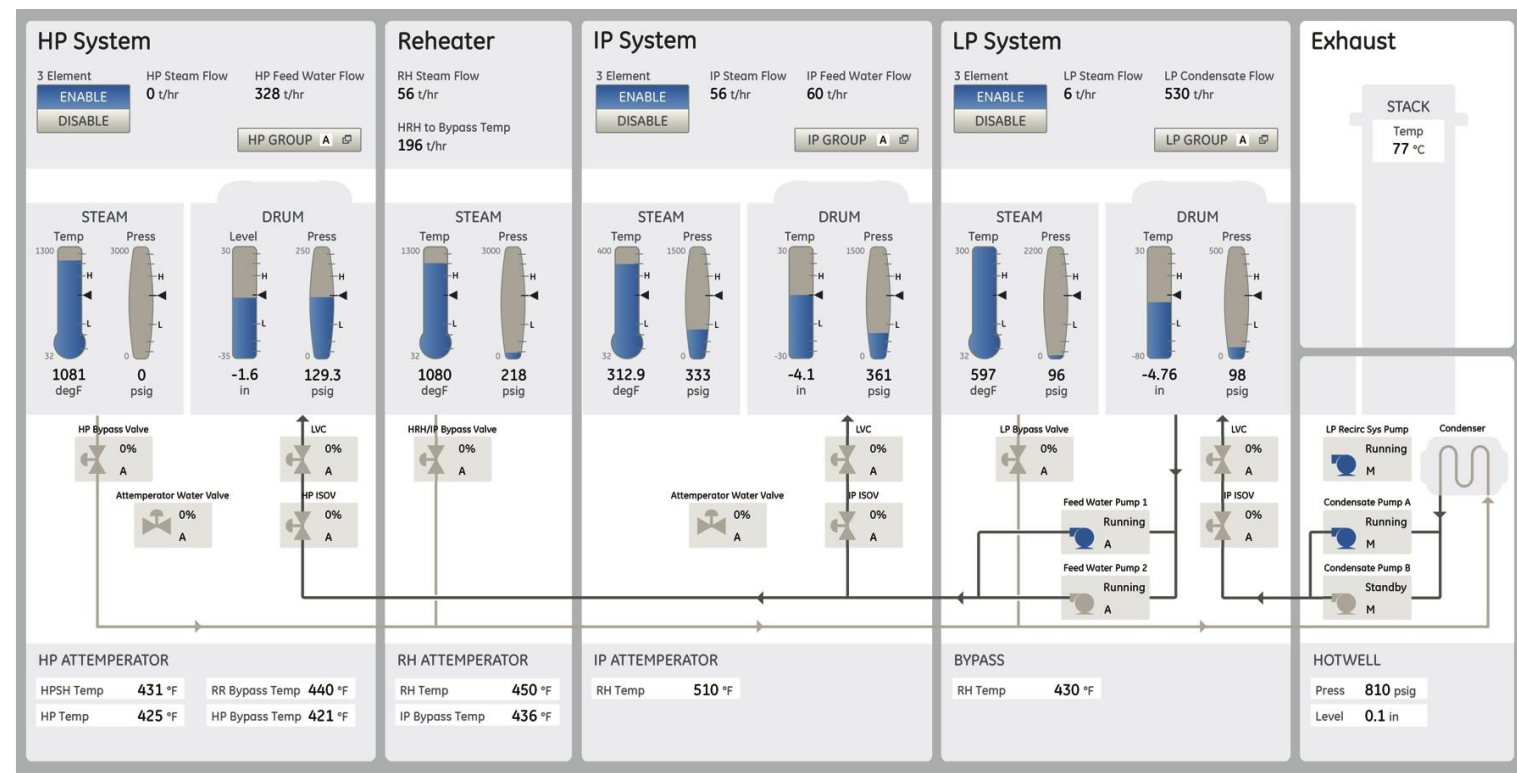

## Features

- New Zero-install HTML5 client, no third-party software required
- New option for strong encryption
- New App for MAC OS X - simplified installation, multi-monitor support, client sound, and Max OS X Gatekeeper support
- Client-side scaling support for high-resolution devices
- Mobile Sense Technology Mobile for a better user experience on mobile devices
- Load balancing and high availability
- Full-featured Web and mobile client for iFIX or CIMPLICITY, with one server and real-time data updates
- No restrictions on secure containment of third-party controls; launch third-party apps triggered in iFIX or CIMPLICITY, control elements operable within WebSpace and inherit security setup
- External access over the Internet, multi-tab browser support, remote access for debug and support
- E-signature enhances security and audit trail
- Support displays with animations
- View, acknowledge, and silence alarms and warnings
- Administration: client disconnect, client session shadowing, SSL 56-bit encryption, port selection, maximum client limit

Proficy WebSpace 6.2 improves the way operators receive and react to insights through real-time visualization and control - anywhere, anytime.

Version 6.0/6.2 offer enhanced encryption for better security, a new zero-install HTML5 client, new OS compatibility, and touchscreen improvements.

Consult [product documentation](#) for hardware/software requirements. Confirm standard vs optional features with GE Vernova representative. Specifications are subject to change without notice. Results and functionality vary, depending on existing hardware/software, applications, implementation, and other factors.
